treating the school age pdf - May  
is Better Hearing & Speech  
Month! Communication disorders  
are among the most common  
disabilities in children  
nationwide, with 11% of children  
ages 3-6 having a speech,  
language, voice, or swallowing  
disorder and almost 15% of  
school-age children experiencing  
some degree of hearing loss.
